Part-time Program Delivery Schedule

Addictions and Mental Health (ADMH)
Ontario College Graduate Certificate
Course schedule

Graduation Requirements: 9 Program Courses, 1 Internship

Welcome to the program!

Notes for Part-time Students

This program is delivered online. Part-time students will typically share the online classes with full-time students. Select courses are delivered online asynchronously each semester. (Noting that clinical courses (ADCT1001 and ADCT1022 will include a weekly one-hour synchronous lab.)

At this time, we are planning the online course options semester to semester, meaning we do not have a full schedule to share.

In this document, you will find a tracking sheet you can use to track your progress in the program as well as some information that you will need to know along the way. Courses are in semesters 1 and 2 – we have listed when courses are currently planned out to be offered in the charts below.

Amy Lagacy, our Programming Support Assistant for this program, will connect with students prior to registration opening up each semester with information on the online courses so you can prepare for registration.

Below is a listing of the required courses in the program with pre-requisite information.

List of Required Courses			
9 Mandatory Courses			
Course Code	**Course Title**	**Hours**	**Term Offered**
