

Health Informatics (HINF)

Ontario College Graduate Certificate

PART-TIME

Frequently Asked Questions

Do I need to apply?

Part-time students must apply to this program through ontariocolleges.ca
Use the code HINF.

When can I start the program?

Intakes: September

What is the HINF program about?

Georgian's Health Informatics program will equip you with the skills needed to thrive in the quickly evolving digital health world. You will gain skills and knowledge in the areas of healthcare delivery, information technology, and data analysis. You will explore clinical informatics, health information management, privacy and security, healthcare systems and information technology. Throughout your program you will gain hands-on learning by immersing yourself in case-studies and projects that address the complexities of emerging technologies in our healthcare system. In your last semester you will complete your capstone course by working through an industry project, exposing you to the steps of business analysis and change management in a real-world scenario. Upon graduation, you will have the competencies and professional skills required to be successful in the health informatics field.

What career paths can I take in health care data?

The Health Informatics program helps graduates develop the skills they need to manage healthcare data, improve patient care through technology, and support healthcare decision-making processes. Students will learn about electronic health records (EHR) systems, data security, and healthcare analytics, which are crucial in today's digital healthcare landscape, preparing them to enter into a variety of healthcare roles with specific skills in a number of digital competencies. Graduates may find employment in the following positions:

- privacy co-ordinator
- training co-ordinator
- clinical informatics co-ordinator
- EMR/EHR analyst
- junior business analyst

How many courses do I take?

Full program details and Admission Requirements can be viewed on the [Program Outline](#).
Note this is a Bring Your Own Device program.

13 Program Courses

How is this program delivered? Will I have to be in-person?

This program has a hybrid delivery. Courses are a combination of online and in-person. Please connect with Jennifer Ethier, program coordinator, for information on course delivery.
Jennifer.ethier@georgiancollege.ca

How do I know which courses to take?

We have set a schedule up for you – review the [DELIVERY SCHEDULE](#) posted on the program page:

The Delivery Schedule shows the order in which part-time students should take courses. This was set by the program coordinator and is highly recommended you follow the path to ensure you have courses to take each semester. If you have questions about which courses to take, connect with the program coordinator.

How long will it take to complete the certificate?

There are 2 sequencing options in the Delivery Schedule. Refer to that document (see above) for timelines.

What is the cost of the program?

There is no program fee when studying part-time. Payment is per course, as you register.

The course fees change year-to-year and course to course. The best source for accurate fees is to check the website: [Health Informatics](#).

See screenshot below. Note, courses have different hours and therefore different fees.

Course information

Course offerings and equivalents
Currently available courses are linked below.

Course title	Course code	OntarioLearn equivalents
