

Environmental Technician (ENTN) Ontario College Diploma

PART-TIME

Frequently Asked Questions

Do I need to apply?

Part-time students must apply to this program through ontariocolleges.ca
Use the code ENTX. (This is the program code on OCAS.)

When can I start the program?

Intakes: September

How many courses do I take?

Full program details can be viewed on the [Program Outline](#).

Graduation requirements

22 Program Courses

2 Communications Courses

3 General Education Courses

1 Co-op Work Term

Do I have to do a Co-op Work Term as a part-time student?

Yes, Co-op Work Terms are part of the graduation requirements for all students.

If you are working full-time and are unable to complete a co-op, please connect with us to discuss your options.

Are courses delivered in the evening? Online?

Part-time students enrolled in the Environmental Technician Diploma take courses along with the full-time students. There are no courses specifically scheduled in the evening. Courses are delivered on campus. The course schedules (day/time) usually becomes available 6 weeks prior to the semester start date.

Communications and General Education courses are available online.

What is the cost of the program?

There is no program fee when studying part-time.

As a part-time student, you can take 1, 2 or 3 courses at a time in any given semester.

Payment is per course, as you register.

The course fees change year-to-year and course to course. The best source for accurate fees is to check the website:

PROGRAM DESCRIPTION

Environmental Technician students are trained as entry-level practitioners in the use of environmental sampling, monitoring and testing equipment and information technology tools and will be familiar with standard operating procedures for conducting environmental projects. Students are provided with applied knowledge of health, safety and environmental legislative requirements, environmental management systems, and the basic principles of ecosystem-based management for sustainability.

ENVIRONMENTAL CAD

ENVR 2019

Students read and interpret engineering drawings and use the computer as a drafting tool. Students prepare and interpret environmental land survey and civil engineering drawings. Emphasis is placed on contours, plan and profile, cross-section and determining earthwork quantities, topographical survey and structures as they relate to environmental engineering. Specific CAD techniques and procedures are applied to the creation of these drawings.

Program outline

Delivery schedule

How to apply

How long will it take to complete the diploma?

This program will take 4 years or 11 semesters to complete as a part-time student if you are following the Delivery Schedule.

Don't forget to look into a Credit Transfer/Prior Learning Recognition evaluation of your past education and experience for fast tracking through the program.

If you have significant work experience you can review our PLAR opportunities:

<https://www.georgiancollege.ca/admissions/credit-transfer/>

If you have taken post-secondary at another institution, you may be eligible for credit transfer and/or prior learning recognition.
